

# WORK PLATFORMS

## Take your work to new heights....

Haugen® Work Platforms are designed to keep your crew safe and are packed with the features you want in a work platform. Mesh floors, safety restraint tie down bars, industrial quality hinges and latches, door safety pins and heavy duty fork pockets on both the wide and narrow sides make this one of the best work platform in the business!

*Collapsible for easy storage and transport!*

**Pins over your fork tines.** Each pin is chained to the Platform. Fits on most Telehandlers.

**Safety Restraint Tie Downs** are standard on all platforms. This gives you a safe place to connect your safety harness.

**Door Safety Pins** gives the door extra strength and allows the door to remain rigid at all times.

**Safety pins** are standard for all doors and side rails. Each pin is attached to the rail by a cable to prevent loss.

**Optional End Fork Slots** make it easy to transport your platform. To be used for loading and unloading only.
